

# Roman Numerals

Name \_\_\_\_\_ Date \_\_\_\_\_

We use the decimal number system whose numerals are 1, 2, 3, 4, 5, 6, 7, 8, 9, and 0.

The Roman numeral system uses letters as numerals.

$I = 1$

$II = I + I = 2$

$IV = V - I = 4$

$V = 5$

$VIII = V + I + I + I = 8$

$IX = X - I = 9$

$X = 10$

$XV = X + V = 15$

$XX = X + X = 20$

Write the number using decimal system numerals.
